H 67.61 Temperature sensor, stainless steel

/// Data Sheet

Temperature sensor, made of stainless steel, for use with EUROSTAR, MINISTAR and MICROSTAR control overhead stirrer with a fast response time.

Max. depth of immersion 230 mm

Diameter 3 mm

Material: AISI 316 Ti

Maximum temperature: 290 °C

Response time: $t_{0,9} = 4$ s

designed for scientists
