

designed for scientists

H 68.55 Temperature sensor, stainless steel

/// Data Sheet

PT 1000 temperature sensor, made of stainless steel, for use with EUROSTAR, MINISTAR and MICROSTAR control overhead stirrer.

Suitable for highly viscous samples or in combination with LR 2000.60 receptacle at LR 2.ST

Max. depth of immersion: 230 mm

Diameter: 6 mm

Material: AISI 316 Ti

designed for scientists

Max. temperature: 350 °C
Response time: $t_{0,9} = 10$ s

designed for scientists
